TO WHOM IT MAY CONCERN

Re: Availability of spare parts for UNITEC analyzer mod. LSPM10

UNITEC SRL is always involved in the innovation of our products to serve the needs of our customers in the best possible manner.

Keeping in our portfolio the spare parts of old products, which often rely on obsolete components, after more than 10 years since their launch in the market, it is not technically sustainable and it is inconsistent with the maintenance of our quality standards.

Therefore, Unitec announces that for this product

UNITEC LSPM10

as of 31/12/16 we can no longer ensure the availability of spare parts at our stock.

Purchase orders received after that date could therefore not be accepted in case the item is discontinued.

Sincerely
UNITEC SRL
